

ROOTastic liquid

A Nitrogen-fixing soybean inoculant.

HOW IT WORKS

The active ingredient in ROOTastic, the naturally occurring bacterium *Bradyrhizobium japonicum*, grows on plant roots and forms root nodules which convert or fix nitrogen from the air into forms the plant can use.

DIRECTIONS FOR ON-SEED USE

- Shake well before use.
- Open package only when ready to use.
- Protect inoculated seed from sunlight and drying winds.
- Plant inoculated seed within 4 days.
- Pull bag cap through the circular opening and close lid. Measure the appropriate rate for the quantity of seed being inoculated, pour over the seed and stir well until all seeds glisten:
- 1.5 fl oz/cwt
- 0.75 fl oz/140k seed count

APPLICATION GUIDELINES:

- 1.5 fl oz/cwt
- 0.75 fl oz/140k seed count
