

# ExtraCate™

NATURALLY POWERFUL. UNIQUELY EFFECTIVE.

## INNOVATION FOR ENHANCED SOIL NUTRITION

EXTRACATE™

EXTRACATE™

EXTRACATE™

EXTRACATE™

### WHAT IS EXTRACATE™?

**EXTRACATE™** works with your liquid starter fertilizer applications or by itself to help unlock soil nutrients that will benefit your crops, specifically calcium and magnesium.

**EXTRACATE™** works especially well in making calcium more available to plant roots by solubilizing soil calcium ( $\text{CaCO}_3$ ) and other nutrients tied up in the soil. It is formulated with a naturally derived complex of organic acids, providing a one-two punch to soil nutrition. **EXTRACATE™** supports the solubility, availability, and uptake of a broad range of nutrients across all types of soil. Formulated with a safe-to-use acidic pH solution, **EXTRACATE™** may help with tankmix compatibility in some situations.

### BENEFITS:

- Can be added to liquid fertilizers or applied alone.
- Solubilizes soil nutrients for increased availability to plants.
- Solubilized calcium replaces hydrogen ions on soil exchange sites, reducing soil acidity.
- Can be used in all soil pH's and types.
- Supports yield and crop quality potential.

### APPLICATION GUIDELINES:

- Mix with row starter at 20 oz. for in-furrow applications in corn or soybeans.
